

Attention! Core Requirements

Engine and/or Transmission Core Return Requirements for Credit

1. Cores must be drained of all fluids.
2. Cores casting must be the exact match as the Engine or Transmission Purchased/sold.

(An example: If the engine purchased is a Ford 6.7L Powerstroke, the core returned must be a Ford 6.7L Powerstroke core in order to receive credit)
3. Cores must be complete, assembled and no signs of visible damage.

(An example: Complete = includes all parts that are included with the new/reman item.
Engines should include block (crankshaft, rods, pistons), head(s), camshaft(s)
Transmissions should include (if included in the item sold) housing including tail housing, torque converter (secured to transmission) and all solenoids.
Assembled = no disassembly accepted; no box full of loose parts.
Visible Damage = holes in blocks or castings, ears or mounting tabs broken off.
4. Shipping Container – If the new/reman unit was shipped in a plastic crate, it needs to be returned in the same plastic crate.
